

Installation

System Requirements

Supported Operating Systems:

- Windows 10 (64-bit) - Build 1809 or later
- Windows 11 (64-bit)

Hardware Requirements:

- Processor: Dual-core 2.0 GHz or faster
- RAM: 4 GB minimum
- Disk Space: 200 MB
- Administrator privileges for installation

⚠ Important: App is currently in BETA. Minor bugs may be encountered. Report issues to support.

Download Process

Step 1: Access Download

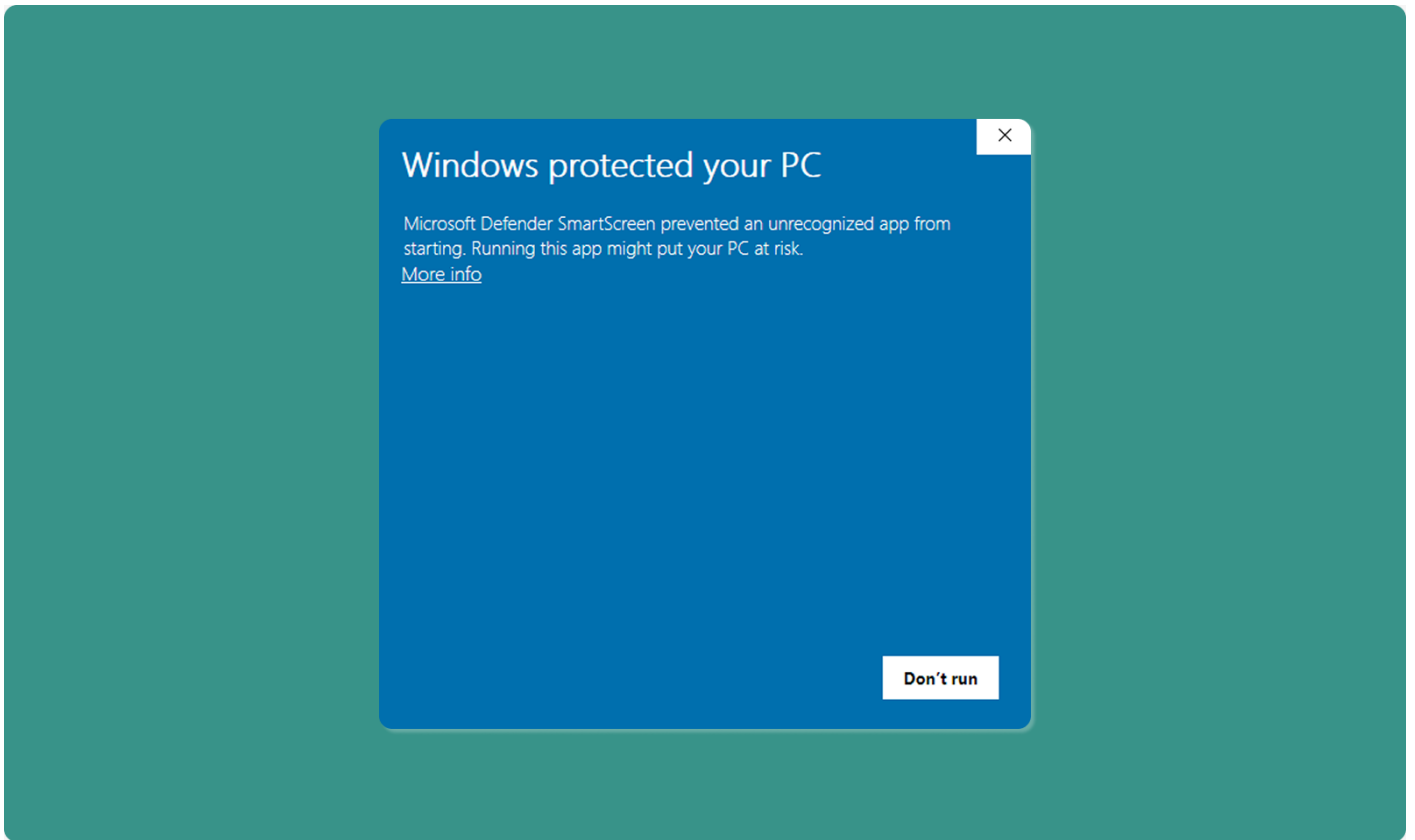

1. Log in to Atra RMS (web interface)
 2. Navigate to VPN section
 3. Locate Download button (top-left corner)
 4. Click Download button
-

Step 2: Locate Installer

1. Installer downloads to your default Downloads folder
 2. Filename: AtraVPNClientSetup.exe
 3. Locate file in Downloads folder
-

Step 3: Run Installer

1. Double-click AtraVPNClientSetup.exe
2. Windows SmartScreen warning may appear.

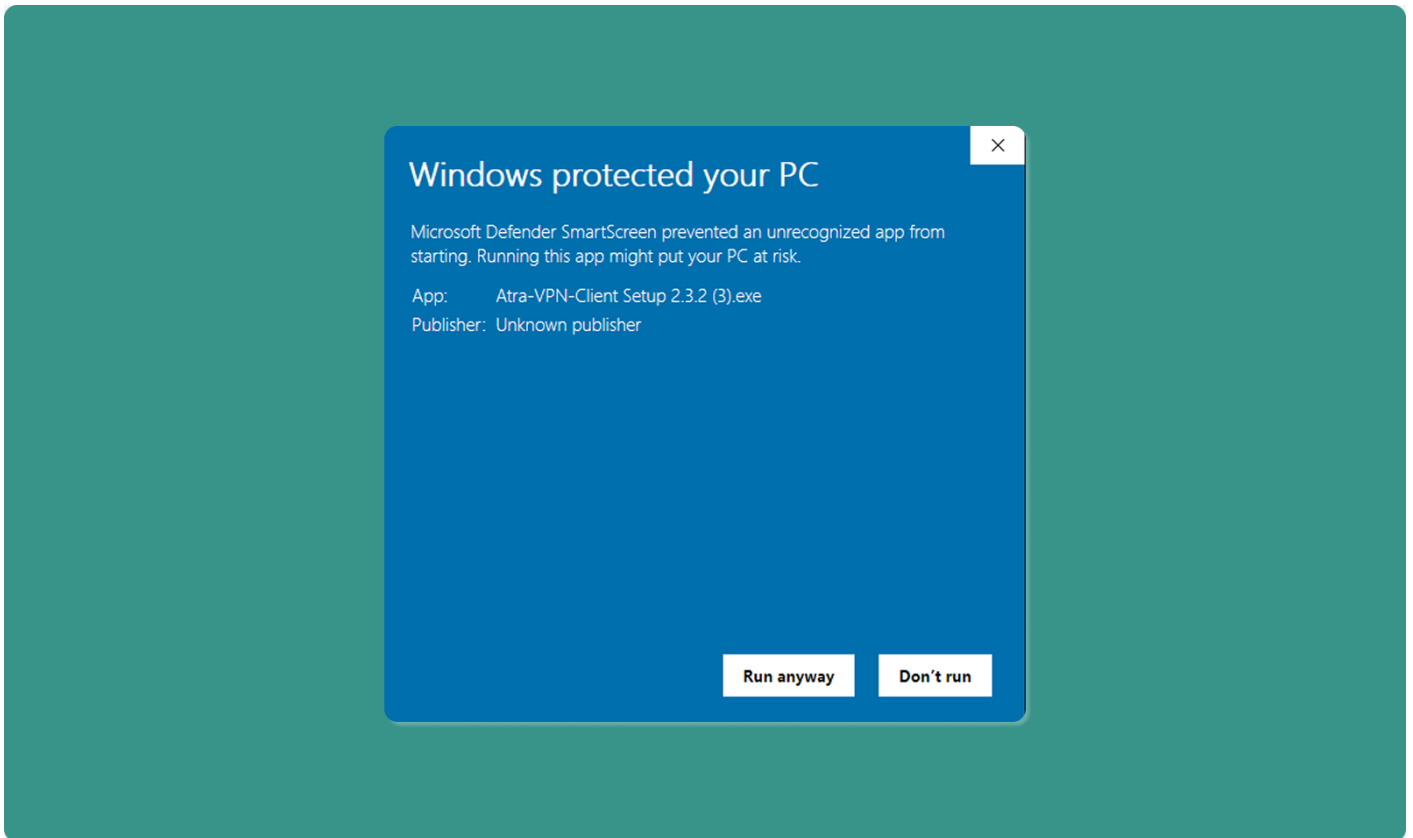

Windows SmartScreen Warning

Why This Appears:

- Standard Windows security check
- Appears for BETA apps not yet widely distributed
- Does NOT indicate malicious software
- Atra VPN Client is developed and signed by Atreyo, you can safely proceed.

How to Proceed Safely:

1. SmartScreen window appears: "Windows protected your PC"
2. Click "More info" link
3. "Run anyway" button appears
4. Click "Run anyway"
5. Installation proceeds

Step 4: Administrator Permission

Windows User Account Control (UAC) prompt appears.

1. Message: "Do you want to allow this app to make changes?"
2. Click "Yes" to grant administrator privileges
3. Installation wizard opens

Why Administrator Rights Needed:

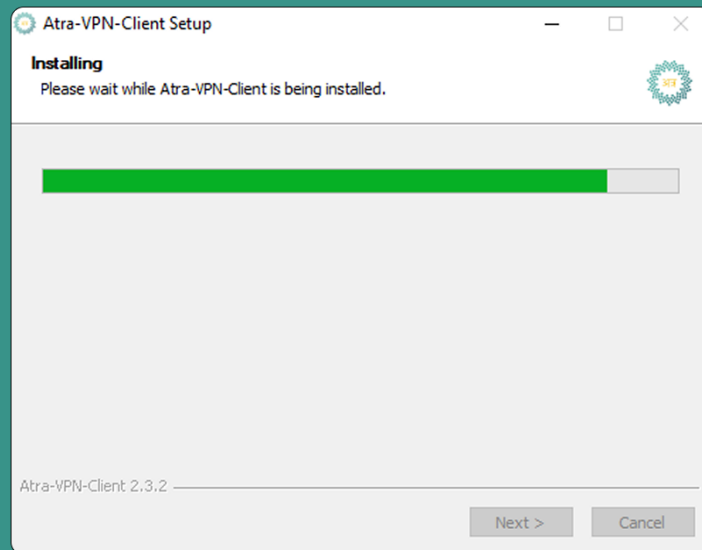

- Install OpenVPN drivers
- Create system network interfaces
- Modify network routing tables
- Write to Program Files directory

Step 5: Installation Wizard

Follow on-screen installation steps:

1. Welcome Screen: Click "Next"
2. License Agreement: Read and click "I Agree"
3. Installation Location: Use default or choose custom (click "Next")
4. Install: Click "Install" button

5. Progress Bar: Wait for installation (typically 1-2 minutes)
6. Completion: Click "Finish"

Step 6: Launch Application

After installation completes:

1. Atra VPN Client automatically launches
2. Login page displays
3. Ready for authentication

Desktop Shortcut: Installer creates desktop icon for future launches.
