

Key Features of the Atra VPN App

Auto-Updater

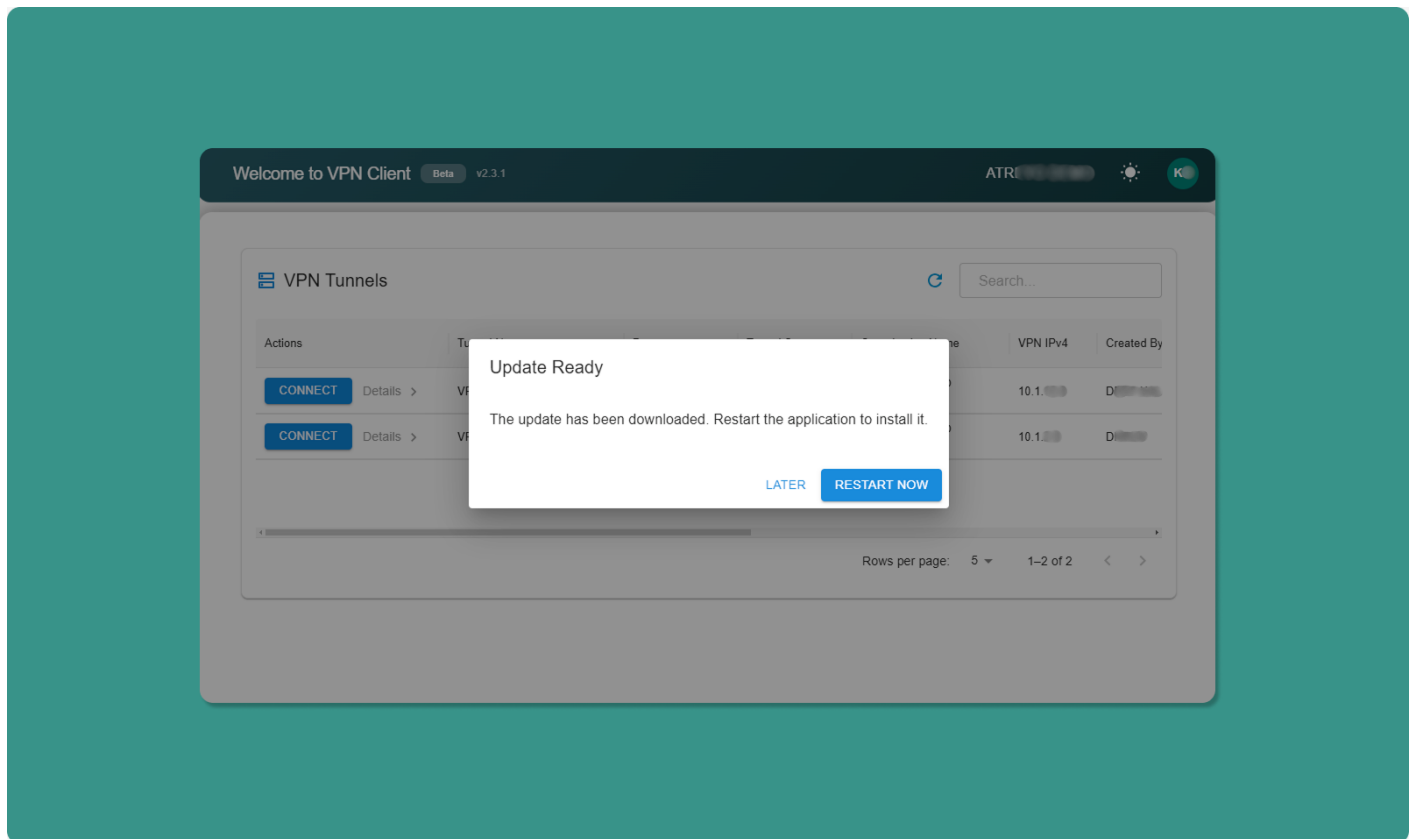

The app automatically checks for updates on launch.

Update Available:

1. Dialog appears: "Update Available"
2. Message shows for available version.
3. Options:
 - Download Now: Download update immediately
 - Skip: Skip for now, check again next launch

Download Process:

1. Click "Download Now"
2. Progress bar shows download status
3. When complete: "Restart to Update" button appears
4. Click "Restart to Update"
5. App closes and reopens with new version

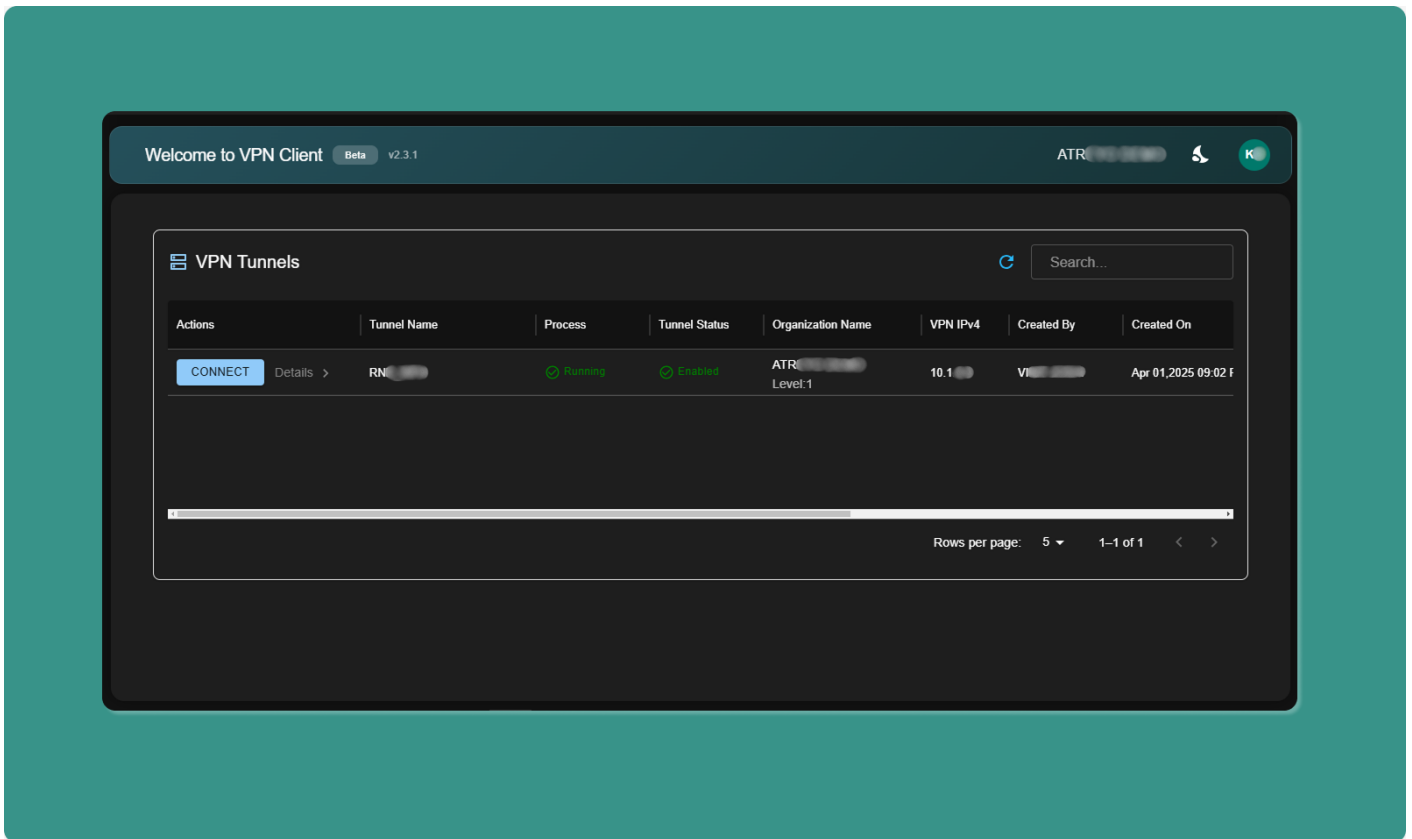

Already Up to Date:

If you have the latest version:

- Message appears: "You have the latest version"
- No action needed
- Dialog closes automatically

📌 Best Practice: Always keep app updated for latest features, security patches, and bug fixes.

Theme Toggle

Switching Themes:

1. Locate theme toggle (top-right area)
2. Click toggle switch
3. Interface switches immediately:
 - Light Mode: White background, dark text
 - Dark Mode: Dark background, light text

Persistence:

- Your choice is saved automatically
- Next time you launch app, your preferred theme applies
- No need to reselect each time

Benefits:

- Light Mode: Easier reading in bright rooms, office environments
- Dark Mode: Reduces eye strain in low light, saves battery (OLED screens)
