# Roles & Permissions FAQs

## Quick Troubleshooting

**Can't see Edit button?**

- Check you have "Roles Edit" permission
- Verify not trying to edit Company Admin role

**Can't toggle switches?**

- Click Edit button first to enter Edit Mode

**Changes not saving?**

- Check role name follows rules (3-50 chars)
- Verify dependencies satisfied
- Check internet connection

**Role not appearing when inviting users?**

- Verify role created in correct organization
- Refresh page

## Summary

**Role Management Workflow:**

1. Create role → Define permissions
2. View role details → Check permissions table
3. Edit role → Modify permissions as needed
4. Assign to users → Permissions apply immediately

**Key Points:**

- Always enable View when enabling other permissions
- Enable Devices View when enabling VPN permissions
- Company Admin role cannot be edited
- Changes take effect immediately upon saving
- Test roles before production deployment
